

THE STRONG SILENT TYPE

Manufactured with a focus on delivering all-round performance, the new MASTEC 660-litre and 1100-litre 4-Wheel MGBs combine robust, high quality construction with a smooth interior design that delivers optimum 'low noise' emptying and easy cleaning.

Fully-compliant with DIN 30740/EN 840 Standards, MASTEC 4-wheel MGBs are built to last, with a high quality, robust construction that combines galvanised metal parts, heavy-duty castors and high performance UV Stabilised HDPE that has been specifically formulated to withstand harsh Australian conditions.

If it's a 4-wheel bin you're after, go for the Strong, Silent type... choose MASTEC®

The Leading Edge in Waste Management
